

Alpha Marine is committed to conducting its business affairs to achieve the highest quality of operation and service. Our management experience, HSE and engineering knowledge helps to achieve maximum productivity and our vessel crews are highly experienced and trained.

The company will ensure the provision of high quality services, projects and procedures to its clients, not only in respect to our clients' expectations and requirements but also to ensure a responsible, profitable, and sustainable future for the company.

Alpha Marine is committed to:

- Implementing and maintaining a quality-control system in accordance with the quality standard ISO 9001:2015 (*International Standard for Quality Management Systems (QMS)*).
- Ensuring our vessels are maintained to the highest standard as per engine and equipment manufacturers specifications.
- Ensuring that managers devote the same time and resources to quality control as they do to other primary business objectives.
- Complying with statutory requirements and ensuring continual improvement through the systematic review of the quality process.
- Employing skilled and responsible employees who maintain awareness of the requirements of quality control and who recognise that adherence to quality control is an essential professional skill.
- Providing quality-control training, setting quality-control targets and communicating quality expectations.
- Working in close interaction with our clients and partners in order to ensure complete transparency of mutual requirements.
- Managing subcontractors to ensure that their activities meet standard quality requirements as a minimum.

This policy is communicated to all employees and organisations working on Alpha Marine's behalf. They are expected to co-operate and assist in the implementation of this policy, whilst ensuring that their own work is carried out to guarantee the highest standard of quality in production and service.

This policy will be reviewed annually by management. Older versions will be archived. It will be displayed on site where the company operates and on the company website. It will be part of employee and sub-contractor induction and on-going training procedures.
